MULTI-PORZION PACKS

DESCRIPTION

The product is proposed in multi-portion packs which keep unchanged the characteristics of the fresh vegetables cooked au naturel. Among the many specialties belonging to the V gamma, we have chosen: spinach, Swiss chard, friarielli (turnip tops), escarole, Savoy cabbage, etc. All indications concerning vegetables in single packs are also applied for vegetables proposed in multi-portion packs.

FOOD INDUSTRIES

Industries able to include the product in their production process.

CASH & CARRY

These products are requested by both small food shops and catering operators who need ready-to-eat vegetables to be proposed to the final consumer or to be further transformed.

CATERING

Providing food service for canteens, big centres, events and banquets.

CONVENIENCES OF MULTI-PORZION PACKS:

The products are pre-washed and already cooked: this constitutes a considerable time and energy saving. Manpower costs are reduced, without reducing the high quality of products.

Protective atmosphere packaging prevents the superficial water of the products from evaporating: this minimizes the loss of mass of the fresh products, and exalts their organoleptic properties.

Thanks to rectangular form and absolute absence of lost space, the multi-portion packs bulk is minimal.
