

## BIPACK

### DESCRIPTION

The new bipartite box propose our products without changing the properties of cooked au naturel fresh vegetables. The 300g bipartite box allows you to eat a single portion while conserving the other one in the refrigerator.

### ADVANTAGES OF BIPACK LINE:

*Annatura Bipack is still more practical and it eases the preparation and consummation of healthy excellent food. Moreover, by allowing the consumer to eat the product at different times, Annatura sustains a responsible, not massive and non-wasteful use of food.*

## C A R R O T S

### ACTIVE INGREDIENTS:

The carrot is rich in betacarotene and provitamin A, which the body turns into Vitamin A, necessary for healthy skin and for good eyesight. During cooking, the quantity of provitamin A in carrots remains nearly unaltered.

A very small portion of carrots can cover the daily requirement of provitamin A necessary for an adult.

### CHARACTERISTICS:

Italy may be the only European country able to produce carrots all year round. Probably, carrots come from the Mediterranean area and derives from the cross of two natural ombrelliferae of the Daucus genus: *Daucus carota* L. var. *typicus* and *Daucus carota* var. *maximus*.

### DID YOU KNOW?

In ancient times, carrots were used exclusively as food for animals and not for cooking. But their properties of freshening breath and a helping to keep the mouth healthy have led carrots, over time, to be considered a symbol of health, especially in the Arab tradition.

### ADVICE FROM THE CHEF:

*The product, cooked simply and conserved in convenient packages, can be eaten immediately upon opening the container, dressing it with extra virgin olive oil and salt. The addition of balsamic vinegar increases its flavour. Buon appetito!!!*

Produced by: GESTIONE SERVIZI INTEGRATI srl  
Establishment Via E. Amaldi, 12 - 00015 Monterotondo (Z.I.) Rome

## Specification / Carrots

### Nutritional Values for 100 g of carrots

ENERGY (calories)	47 kcal / 196 kJ
Edible part	100
Water	88.5
Protein	1.3
