

FRIARIELLI MULTI-PORTION PACKS

DESCRIPTION

The product is proposed in multi-portion packs which keep unchanged the characteristics of the fresh vegetables cooked au naturel. Among the many specialties belonging to the V gamma, we have chosen: spinach, Swiss chard, friarielli (turnip tops), escarole, Savoy cabbage, etc.

All indications concerning vegetables in single packs are also applied for vegetables proposed in multi-portion packs.

FOOD INDUSTRIES

Industries able to include the product in their production process.

CASH & CARRY

Suppliers to businesses in the food industry, such as small grocery shops, restaurants and other dining establishments, should provide vegetables that are easy to prepare and serve to customers, or that can be further processed.

CATERING

Providing food service for canteens, big centres, events and banquets.

CONVENIENCES OF MULTI-PORTION PACKS:

The products are pre-washed and already cooked: this constitutes a considerable time and energy saving. Manpower costs are reduced, without reducing the high quality of products.

Protective atmosphere packaging prevents the superficial water of the products from evaporating: this minimizes the loss of mass of the fresh products, and exalts their organoleptic properties.

Thanks to rectangular form and absolute absence of lost space, the multi-portion packs bulk is minimal.

FRIARIELLI
AU NATUREL
1250 g

Produced by: ANNATURA srl

Establishment Via E. Amaldi, 12 - 00015 Monterotondo (Z.I.) Rome

Specification / Friarielli

Nutritional Values for 100 g of friarielli
